THE Fireman's Journal AND MILITARY GAZETTE.

Devoted to the interests of the various Fire Departments and Military Organizations throughout the State.

CHASE & BORUCK, Proprietors.] OUR TASK - TO ENLIGHTEN. [TERMS, One Year, $5; Six Months, $3.

VOL. III—NO. 20. SAN FRANCISCO, SATURDAY, AUGUST 16, 1856. WHOLE NO 72

PUBLISHED EVERY SATURDAY
BY CHASE & BORUCK,
NO. 72 MERCHANT STREET,
Below Montgomery.

CHARLES M. CHASE, MARCUS D. BORUCK,

TERMS, FIFTY CENTS PER MONTH.

The Fireman's Journal and Military Gazette is published every Saturday morning, and served to City Subscribers at Fifty Cents per month, payable to the Carriers. It will also be mailed for six months for $3,00 or $5,00 a year, payable invariably in advance.

All communications, connected with the editorial department, to be addressed to the editor, post paid;—on business, to the Publishers.

No attention whatever will be given to anonymous communications. Any person wishing articles published in the "Journal" must accompany them with the name of the author.

Advertisements will be inserted at the lowest rates.

All descriptions of Job Printing attended to promptly

The National Guard of Philadelphia

The Infantry corps of National Guard attached to the First Brigade First Division, Pennsylvania Volunteers, was organized in the latter part of the year 1840, by a number of citizens of the then District of Spring Garden—now a portion of the Consolidated City of Philadelphia; the first meeting for the purpose was held on the 3d day of October of that year, when a committee was appointed to ascertain what number might be depended upon to become active and permanent members; at an adjourned meeting held on the 9th of the same month, the committee made such a favorable report that a temporary organization was agreed upon, whicn led to the permanent organization of the Company on the 11th of December, which has been adopted as their anniversary. The first election for officers took place on the 7th of January 1841, when the following gentlemen were chosen:—Captain Thos. Tustin, Lieutenants, 1st George Wolff, 2nd John Matheys, 3d S. Ovenshine; Sergeants, 1st Silas Wilson, 2nd George Megee, 3d C. Beidleman, 4th Jacob Headman, 5th or Quarter Master Wlliam Rice; Corporals, 1st J. Alexander, 2nd Joseph Kenny, 3d Thos. H. Rockwell, 4th John Travascus. Secretary, Rich. M. Rutter, Treasurer, C. Mason.

The Company made their first parade on the 22nd of February 1841, and numbered forty-eight muskets; their second parade was on the 8th of March following; when they numbered forty-nine muskets, On this occasion they joined with the State Fencibles, Capt. Page, in escorting home the National Grays, Capt. Fritz, on their return from visiting Washington, D. C., to witness the innauguration of President Harrison. The corps made ten parades during the year 1841, averaging a fraction over 50 muskets. On their return from one of these parades, on the 20th of April, when they took part in the funeral solemnities in memory of President Harrison, they were presented by Gen. Simon Cameron, of Middletown, with a splendid silk ensign. On the 3d of July the corps visited Lancaster, Pa. with fifty muskets, and encamped on the Conestoga at Lemon's landing, where they remained until the 6th, when they returned to the city highly delighted with the hospitalities of the Volunteers and Citizens of the "Garden County." On their arrival at Lancaster, they were met and escorted to their camp-ground by the Washington Artillerists, Capt. Jack; Lancaster Fencibles, Capt. Findley; Jackson Rifles, Lieut. Trissler; the whole under the command of Major F. Hambright of the Rifles.

On their return to the city they were escorted to their Armory by the National Grays Capt. P. Fritz, and the Independent Blues, Capt. Lilly of Baltimore the Blues being on a visit to Philadelphia, as the guests of the Grays. The first target practice of the corps took place on the 30th of August, when they paraded fifty-three muskets: the first prize a medallion containing the likeness of Capt. Tustin, was awarded to private Sam. Odgen, and the second a silver medal to private E. B. Flake. The corps also paraded on the 21st of the same month, as on escort to the Nationaf Guards of Easton, Pa. Their dress uniform oonsisted of a blue cloth coat, (double breasted) showing two rows of buttons with facings of white cassimere, collar and skirt trimmed with white braid with silver stars on the back of the collar and on the turn-up of the skirts. Pants of sky-blue cassimere, with white stripes one and a half inches wide, down the seams. Cap of blue cloth, with silver-plated vizor and band, silver gloriæ in front, with brass eagle in centre, the whole surmounted with white vulture plumes. On the 11th of October 1841, the company visited Camp Montgomery at Pottstown, Pa., where they were reviewed by Govenor Porter; there were eighteen companies in attendance at this encampment numbering in all some eight-hundred men. In September, 1842 they visited Camp Delaware, at Easton, which was under the command of General George Cadwalader. The Company has subsequently visited Trenton, N. J., Wilmington, Del., and Salem, N. J., and on the occasion of the burial of President Taylor, July 13th 1850, visited Washington city, and took part in the funeral escort—this visit being entirely impromptu, but few of the members were enabled to attend. The detail received the most flattering attention from the 53d Maryland Regiment of Baltimore, as well as from the officers and members of the Independent Blues Capt. Schutt, Independent Greys and the First Baltimore Sharpshooters of that city, and the Washington Light Infantry of Washington, D. C., by whom they were handsomely entertained. They also visited West Chester, Pa., on the occasion of the re-interment of General Bernard, in the fall of 1854, and were detailed as the firing party. And on the occasion of the death of Commodore Jacob Jones, in September, 1845, were detailed as the guard of honor and did the firing.

The company was on duty at the distressing and unfortunate riots which disgraced our city on the 4th and 5th of May, and the 5th and 6th of July 1844, and at the subsequent riot of October 1849. On the breaking out of the war with Mexico, in 1846, their services were tendered to the Govenor, but the number of companies offerring being much greater than the quota required of the State they were not accepted.

The Guards being organized within the limits of the Second Brigade they were inspected and for a short time attached thereto, but becoming dissatisfied, were transfered to the First Brigade, a special act of the legislature having been obtained for that purpose. The armory of the company from 1840, to December, 1845, was at the Spring Garden Exchange, when it was removed to Eighth St. above Wilow—In Sept'r, 1852, they removed to Edwards' building, Chesnut near Fifth St.; this armory was destroyed by fire on the 15th December, 1854, and with it the fatigue uniform, muskets, knapsacks and other property, amounting in all to some $4000: among the numerous articles destroyed were the ensign presented to the company by Gen. Simon Cameron, and a revolutionary muster-roll—together with the minutes and papers of the corps, prior to 1849. They removed to their present armory, Military Hall, Library St. in July, 1855.

From the dates of the organization of the company to the present time their parades have averaged more than any company in the Division being a fraction over sixty men—their average for 1855 being eighty-five and for 1855, up to this time ninety-two men.—Capt. Tustin remained in command of the the Company until Nov., 1844, when he resigned—in the following month, December, S. B. Kingston was elected Captain, he retained his commission until October, 1846, when he resigned and was succeeded by P. Lyle their present Captain, to whose military talent, self-denial and industry, the corps owes much of its present prosperity.

The following list comprises the names of the of ficers and members of the corps of National Guard of Philadelphia:—

CAPTAIN,
PETER LYLE.
LIEUTENANTS,

1st, George Megee.	2d, D. W. C. Baxter.
3d Robt. B. Quayle.	4th J. W. Fritz.

SERGEANTS,

1st J. T. Durang.	5d W. B. Carlile.
3d J. S. Davis.	4th W. P. Davis.
5th or Quartermaster	Wm. Lindsay.

*Absent.

The following advertisement is taken from an Albany paper published in 1808. It may be interestiug as serving to show the vast difference existing between the rapidity of travel on the Hudson River at that time and the present, and likewise the price of passage;

THE STEAM BOAT,
For the information of the public.

The Steamboat will leave New York for Albany every Saturday afternoon, exactly at 5 o'clock,

AND WILL PASS

West Point about	4	o'clock on Sunday morning
Newburgh at	7	do
Poughkeepsie at	11	do
Esopus at	2	in the afternoon.
Red Hook at	4	do
Catskill at	7	do
Hudson at	9	do

She will leave Albany for New York every Wednesday morning, exactly at 8 o'clock:

AND PASS

Hudson about	3	in the afternoon.
Esopus at	8	in the evening,
Poughkeepsie at	12	in the night.
Newburgh at	4	on Thursday morning,
West Point at	7	do

As the time which the boat may arrive at the different places above mentioned may vary an hour more or less, according to the advantages or disadvantages of wind and tide, those who wish to come on board will see the necessity of being on the spot an hour before the time. Persons wishing to come on board from any other landing than here specified, can calculate the time the boat will pass and be ready on her arrival. Inkeepers or Boatmen, who bring passengers on board or take them ashore, from any part of the river, will be allowed a shilling for each person.

Price of passage from New York.

To West Point,	$2 30
Newburgh	3
Poughkeepsie,	3 50
Esopus,	4
Red Hook,	4 50
Hudson,	5
Albany,	7

From Albany to New York.

To Hudson	$2
Red Hook,	3 00
Esopus,	3 50
Poughkeepsie,	4
Newburgh and West Point,	4 50
New York,	7

All other way passengers are to pay at the rate of one dollar for every twenty miles, and a half a dollar for every meal they may eat.

Children from one to five years of age, to pay one third price, and sleep with the persons under whose care they are.

Young persons from five to fifteen yeas of age, to pay half price, provided they sleep two in a berth and whole price for each one who requests to occupy a whole berth.

Servants who pay two thirds price are entitled to a berth; they pay half price if they do not have a berth.

Every person paying full price is allowed 60 lbs of baggage if less than whole price 40 lbs. they are to pay at the rate of *three cents* a pound for all surplus baggage. Store-keepers who wish to carry light and valuable merchandise, can be accomodated on paing three cents a pound.

YUBA No. 2.—At an ellection held in the Yuba Engine Company No. 2. ol Marysville on the 6th inst., C. Killmer was unanimously chosen Foreman.

SHASTA.—The people of this flourishing city are about to organize an efficient Fire Department for the protection of their propety.

THE STREETS.—The members of the Fire Department are informed that Sansome street from Market to Bush; Kearney street from Jackson to Pacific Stockton street from Pacific to Broadway and Pacific street from Stockton to Dupont streets, are at present impassable—particularly at night.

SONORA.—The people in Sonora, are about organizing an effective Fire Department for that city. a committee has been appointed to purchase a first class engine; of which, there are several splendid ones for sale in this city.

Field Fortifications; No. 1.

[GENERAL PRINCIPLES.]

All dispositions made to enable an armed force to resist with advantage the attack of one superior to it in numbers, belong to the art of Fortification.

The means resorted to, for the purpose of—strengthening a position, may be either those presented by nature, as precipices, woods, rivers &c. or those formed by art as shelters of earth, stone dan wood. If the materials used are of a durable character, and the position is to be permanently occupied, the works by which it is strengthend receives the name of permanent fortifications, but when the entrenched position is to be occupied for a period, or during a campaign, perishable materials, as earth and wood are mostly used. The general appelation of intrenchments is applied to all field works, and a position strengthened by them is said to be intrenched. To enable troops to fight with advantage, the intrenchments should shelter them from an enemy's fire; be an obstacle in themselves to the enemy's progress and afford the assailed the means of using their weapons with effect. To satisfy these essential conditions, the component parts of every work should consist of an embankment, denominated the parapet to shelter the assailed from the enemy's missiles, to enable them to use their weapons with effect and to present an obstacle to the enemy's progress and of a ditch, which from its proximity to the parapet subserves the double purpose of increasing the obstacles which the enemy must surmout, before reaching the assailed and of furnishing the earth to form the parapet. From this view, of the subject, intrenchments should be regarded only as accessories in the defence of a position. They are inert masses, which consuming a portion of the enemy's efforts and detaining him in an exposed situation to the fire of the assailed, insure his defeat. The exterior slope, is the part of the parapet facing towards the enemy, it is always made with the same slope that the earth when first thrown up naturally takes. The top of the parapet denominated the superior slope is the line along which the assailed fire on the enemy. The interior slope, sometimes denominated the "breast height" is the part against which the assailed naturally lean in the act of firing. The "banquette" is the small terrace on which the soldier stands to deliver his fire; the top of it is denominated the "tread" and the inclined plane by which it is ascended, the "slope." The term crest is applied to those points where a salient angle is formed; and where a re-entering angle is formed by two lines; the term "foot" is applied to the point in connection with the name of the superior line, thus foot of the exterior slope, and foot of the interior. The berm, the horizontal place left between the parapet and the ditch, to prevent the earth from yielding. The slope of the ditch next to the parapet is the scarpe, and the upper side the counter scarpe.

The glacis is a small mound of earth raised in front of the ditch: it is seldom used however in field works,. The plan of intrenchments in general is so arranged as to procure a mutual defence of the parts. To effect this, certain parts are thrown forward towards the enemy, to receive his attack; they are denominated *advanced parts*; other portions denominated *retired parts* are withdrawn from the enemy and protect by their fire the advanced parts. This arrangement naturally indicates that the general outline of the plan must present an angular system; some of the angular points denominated *salients* being towards the enemy, and others denominated *re-enterings* towards the assailed; when such is made it is denominated a flanked disposition, because the enemy's flank is attained by the fire of the retired parts whilst he is advancing npon the salient. The form of the parapet, and the direction in which a soldier usually aims in firing over it, are the causes of two of the most important defects of intrenchments, owing to the form of the parapet and its height the fire takes effect only some distance beyond it, so that when the enemy has approached very near the parapet, particularly when he is in the ditch, the fire will pass over his head, uuless the flanks are so arranged that their fire will sweep every point of attack, an arrangement of which particular angular systems are alone susceptible. This space where the enemy can find a shelter, is, generally in the ditch at the re-entering angles. It is denominated a dead angle. In delivering his fire a soldier usually aims directly to the front, so that the line of fire and the parapet make nearly a right angle with each other. In consequence of this the salients receive no protection from themselves, and there is an angular space in front of each of them, that is defended only by flanking fires. This space is denominated a *sector without fire.*

An attack is generally opened by a fire of the enemy's artillery, whose object is to silence the fire of the intrenchments and to drive the assailed from the parapet, when this object is attained a storming party, which usually consists of a detachment of engineer troops, a column of attack and a reserve is sent forward under cover of the artillery, to the assault. The detachment of engineers precedes the column of attack, and removes all obstacles such as *abattis* works, leveling *cheveaux de frise*, that obstruct its passage into the ditch. The line of march is directed upon a salient through a sector without fire. When the ditch is gained, the party makes its way to a re-entering angle, where, sheltered from the fire of the flanks, the work is entered by the column of attack, either by making a breach in the parapet, or else by means of ladders. The reserve supports the column of attack in case of need, and if it is repulsed or driven from the works, covers its retreat. The manner of making the defence is with artillery, musketry, the bayonet aud sorties. The enemy is attained at a distance by the fire of the artillery and musketry, whose effect will chiefly depend on the length of time that he is kept exposed to it by the ditch and the obstacles in front of it. The bayonet is resorted to as soon as the enemy shows himself on the berm and sorties are to be made, either when any irresolution or confusion is seen in the enemy's ranks or at the moment he is repulsed from the parapet.

A flanked disposition should be the basis of the plan of all intrenchments. The flanks sweep with their fire, the ground in front of the faces, obviate sectors without fires and dead angels; cross their fire in front of the salients; and take the enemy's column in flank.

Every angle of defence should be ninety degrees. A line of defence should not exceed one hundred and sixty yards. A close fire of musketry is more deadly than one of artillery, the musket will kill at distances between 250 and 300 yards, but its fire is not very certain beyond 160 yards, moreover, the enemy should be attained by the musketry before he gains the salients.

The Russians in their defence of Sebastopol relied, in a great measure, on sorties to harass and throw into confusion the assaults of the enemy. When the allies advanced upon their earthworks the sudden onslaughts of the Russians on the flanks of the column of attack, delivering a deadly angular cross fire, which threw the enemy into disorder and compelled them to fall back. The English troops would never have been enabled to capture the Redan if the fall of the Malakoff had not been effected by French strategy.

The Malakoff being a flanked disposition of the Russian works, and it may be said the key of the left position of defence; its guns completely commanded the interior of the Redan, and it was impossible to receive its fire and the fire of the enemy's intrenchments in front at the same time with any possible show of success, consequently, after the fall of such a prominent position the Russians were compelled to retire. If the nature of the ground in the rear of the Redan and Malakoff had admitted of it, another line of defence might have been erected as "citadels, where the retreating troops could have sheltered themselves and maintained a vigorous defence. As it was, however, the profile of the ground receded in the rear of those positians instead of rising, otherwise, the allies could not have gained access to the south side of Sebastopol, or would the Russians have been compelled to fall back to the north side, their next and last defence, where with their fire it was impossible to cover their first position.

(TO BE CONTINUED.)

Shakspeare's Heroines.

It is remarkable that the daughters of Shakspeare with whom we are most acquainted, Desdemona, Juliet, Jessica, Hero, Miranda, Rosalind, Celia, and Portia, have neither brother nor sister. Each of them is the only child of her parents. Ophelia has no sister. With the exception of Juliet, motherless. Altuough Lady Capulet talks of her old age, being warned to a sepulchre, she was but twenty-eight when she proposed to her daughter the acceptance of Paris' hand. There is no confiiding love, nor affectionate intercourse between Juliet and her mother. On the contrary, she is reserved and secret, keeping her a stranger to her thoughts. Lady Macbeth stands distinctly apart from the other females of Shakspeare, knowing no kin, as if authoress of herself, yet she is restrained by reverential awe, when, intent on evil, she cast her eyes upon the image of her sleeping father. Jessica is insensible to any such touch of natural tenderness. The daughters of Lear, with their deformity, scarcely surpass her in cruelty and filial impiety. She betrays her father, plunders his house, bears off his family remembrances; elopes with his enemies and the enemies of her race—Even the ring of Lear on which she knew his old age doted, she profane, ly exchanges for a monkey, and, in the end, consorts and feasts amid exultations over his overthrow and ruin. Desdemona is an unkind daughter. She deceives, and clandestinely, in the night, deserts her father's house for the "sooty bosom of a Moor." The match was mortal to him, grief of it broke his heart. In all her subsequent career, in sunshine and storm, and even in the last memorial evening in the bed-chamber, alone with Amelia, when her thoughts recur to her childhood and the memories of her mother and her mother's maid Barbara rise up before her, she has not a tear, nor word of pity or tenderness, or even a thought for her neglected and languishing father.

SOLANO.—The Sheriff. of Salano County is out in a card of thanks to the officers and members of "Solano Engine Co. No 1. of Benecia, for their promptness in acceeding to his request, for an escort, ann particularly that portion of the Company who volunteered and performed escort duty at the execution of Beverly Wells.

PLEASANT.—To have a pin stick in your throat, nd imagine it a flea.

Wit and Sentiment.

☞ Dobbs thinks it is better for a man to be the father of a natural son than of an unnatural, one. The Deacon joins issue with Dobbs, and maintains the opposite side of the question. We agree with the Deacon.

☞ What is the difference between an auction and sea sickness?

One is for the sale of effects, the other the effects of a sail.

And why do physicians have a greater horror of the sea than anybody else.

Because they are more likely to see sickness.

☞ "Why did Joseph's brethren cast him into the pit?" asked a sabbath school teacher of his class.

"Because, replied one young lady, they though they thought it a *good opening* for the young man.'

Commentators are requested not to avail themselves of this explanation, as a copyright has been secured.

☞ Kitty says that since she has worn high heeled boots she has risen in public estimation.

☞ Solomon said that when he slipped in the mud in Chestnut street and lay on his back, a young Scotch lady of his acquaintance who came along, exclaimed *So low mon?*'.

☞ A correspondent of "The Lady's Daily Companion" wants to know "whether the steep and thorny path" can be travelled in hoops?" Not by a barrel full!

☞ A lady making inquiries of a gentleman about his friend, an intemperate man, who had been sick for some time, asked whether he had regained his appetite.

"No ma'am," says the "blood," not exactly—his appetite is very poor, but his *drink-a-tite* is as good as ever."

☞ "Landlord," said an exquisite, "can you enable me to realize from your culinary stores the pleasure of a few dulcit murphies, rendered innoxious by igneous martyrdom!"

☞ Tying a mackeral to your coat-tail, and imagining yourself a whale, is one of the first lessons in codfish aristocracy.

☞ Dr. Whitefield was accused of rambling in his discourses by one of his hearers, to which he repled: "If you will wander to the devil, I must ramble after you."

☞ It is thought thht the Brutus who slew Cæsar was some relation to the Crow Family, for in his speech to the populace, he opens with, "hear me for my *caws!*"

The Fireman's Journal

AND MILITARY GAZETTE.

MARCUS D. BORUCK, Editor.

SAN FRANCISCO

SATURDAY MORNING, AUG. 16, 1856

THE FIREMAN'S JOURNAL

AND MILITARY GAZETTE,

IS PUBLISHED EVERY SATURDAY MORNING.

At No. 72 Merchant Street, up-stairs.

It will be regularly served to subscribers in San Francisco every Saturday morning at an early hour, for FIFTY CENTS per month, payable to the carriers.

Subscribers will be furnished by mail for five dollars a year, payable in advance. Two copies sent to one address for eight dollars.

Persons in the city who wish the paper left at their residences, will be served on leaving their names at the publication office.

Advertisements and advertising notices inserted NEW YORK prices.

The FIREMAN'S JOURNAL is for sale on the day of its publication, and for a week thereafter, by

J. W. Sullivan, Washington street, near Post Office,
Mr. Ullman & Co., Post Office Arcade,
Geo. H. Leland & Co., Post Office Arcade,
John Still, *Herald* Office,
Doran & Merriam, 175½ Clay street.

TO THE FIRE DEPARTMENT.—The members of the Fire Department are hereby informed, that all certificates of membership, entitling the holders to vote at the next election for officers of the Department must be dated on or before the 30th day of August next.

Secretaries of Companies, and those desiring to become members of the Fire Department, are also informed that the sum of Two DOLLARS must be paid to Mr. H. A. Cobb, Treasurer of the Board of Delegates, for every certificate required; upon whose receipt and order, *only*, will the same be issued;

The office of Mr. Cobb, is at 102 Merchant street. The Secretary of the Fire Department will remain in his office, every day until the above date from 9 A. M. till 1. P. M., to receive the return of members elected into the Depatment.

AGENCY.—Mr. James E. Nuttman, Chief Engineer of the Fire Department of this City, has been appointed sole agent for the sale of Wackerman's patent Hose and Suction Connection, in the State of California. There are no threads in these couplings oe complicated points like the old style, but can be connected quickly by one persqn without the use of the wrenches, and when together the coupling forms a swivel of itself. They are decidedly the best couplings now in use, and we recommend the Fire Departments and the water Companies, throughout the State to test their usefulness and superiority over the old style.

Sacramento.

A meeting of the Board of the Sacramento Fire Department, was held on Tuesday evening, when the Board permanently organized by the election of the following officers; President, George Rowland, of Mutual Hook and Ladder Company No. 1; Secretary, W. B H Dodson of Alert Hook and Ladder Company No 2; Treasurer, Joseph S. Friend of Sacramento Engine Company No 3. The following were elected Trustees; Josepph H Nevitt of Hook and Ladder Company No. 1. for one year: W C. Felch, of Eureka Engine Company No. 4, for 2 years; James Coggins, of Confidence Engine Company No. 1, for three years. The contest in relation to the seats of delegates from Knickerbocker Engine Company No. 5, was settled by ordering a new election forthwith (the company being in session) which resulted in the return of John C. Keenan, Foreman; and John S. Lee, Secretary of No. 5. Under the new law governing the above Department, the Chief and Assistant Engineer, have to vote in the Board of Delegates; the Secretary receives a salary of six hundred dollars per annum, and in fact the entire government of the organization is similar to that existing in this city, except as to the amount of salaries. The above Board of officers present as substantial a list of names as are to be found at the head of any Department, and gives token of great success and prosperity to the Sacramento Fire Department.

NEW HOSE CARRIAGE.—We yesterday had the pleasure of examining the new four wheeled hose carriage, manufactured for the Mutual Hose Company, of Marysville, by Messrs. J. Berry & Co. on Bush street, between Sansome and Battery. The carriage is a most beautiful specimen of California workmanship, and is certainly very creditable to the builders. It is painted a crimson lake color, the axles and wrench boxes are surrounded with scroll work in gold, and the tongue and spokes of the wheels striped with gold. The reel is of iron scroll work, lined with black patent leather, inlaid with white patent leather stitched, neatly and in good taste. On each side of the reel, engraved on a silver plate, is the name of the company, the hub bands are also silver plated. The lamps on either side are very elegant, in fact the handsomest we have ever seen here, they are silver plated; of gothic style and of an expensive make. The reel is sufficiently large to carry 900 feet of hose. The carriage is built with a view to strength and durability, and at the same time is very light, and in rolling over the smooth streets in Marysville, it will make fast time. The whole expense of the carriage will amount to eleven hundred dollars.—She was promised to the "Mutual's" on the 15th at 12 o'clock, and yesterday at the appointed hour she was ready for delivery.

GAS.—The San Francisco Gas Company have applied to the Board of Delegates for a settlement of the bills engendered, for the "Gas" consumed by the various companies. Considering that as the Board, for the last eighteen months, has been compelled to pay its own expenses, and is now nearly bankrupt; the Gas Company could not have applied to a worse place. The matter was appropriatiely referred to the Board of Supervisors. Could there be anything more supremely ridiculous than the appropriation in the Consolidation Bill for the support of the Fire Department. We are anxious to know what Company intends to claim the *honor* of first nominating Horace Hawes, for the Chief Engineership, he has certainly shown himself (in) competent for it.

LIBERALITY.—According to the dictionary of Horace Hawes, is defined as follows. "To compel a volunteer body of firemen too keep up their organization, by paying the entire expenses of it themselves, and giving their time, labor, health and property, to the citizens and Horace Hawes in particula, for the privilege."

Board of Delegates.

The Regular Monthly meeting of the Board of Delegates was held on Wednesday evening last, August 13th, 1856, at their chambers in the City Hall, at 7 1-2 o'clock.

President Franklin L. Jones in the chair.

The Roll being called the following members answered to their names: Messrs. McCarthy, Hunt, Zabriskie, Wason, Rand Boruck, Hixon, Vreeland, Titcomb, Hossefross, Sinton, Moore, McKendry, Walsh, Thomas, Fitzpatrick, Buckley, Brennan Hoff, Whalen, Finnegan, Reed, Plum, States, Berry, Cobb, Maillott and Law.

Absent: Messrs. Bluxome and Mahony.

The minutes of the Regular meeting, July 9th, were read and approved.

J. L. Ottignon was admitted as a delegate from Howard 3, vice Elcan Heydenfeldt, resigned.

C. S. Biden was admitted as a delegate from Crescent Engine Co. No. 10, vice A. R. Simons, absent from the city.

E. B. McGrotty was abmitted as a delegate from the same Company vice Jas. Herbert, suspended by the Chief Engineer for disobedience of orders.

R. A. Law was admitted as a delegate from Sansome Hook and Ladder 3, vice Wm. T. Hoffman, resigned.

REPORT OF STANDING COMMITTEES.

Committee on Rules.—Mr. Moore from this committee, referred the matter back to the Board, which was under consideration, without recommendation. The report was received.

Committee on Finance.—Mr. Cobb from this committee, in the absence of the chaiman, Mr. Mahony, reported as follows:

SAN FRANCISCO, August 11th, 1856.

BOARD OF DELEGATES OF THE S. F. F. DEPT.

Gentlemen:—The Finance Committee of this Board beg leave to report: That they have examined the bills for printing referred to them, and, after making deductions for over charges &c as detailed below, find balances correct. viz:

Sun. Original amount of bill		$112 00
Deduct meeting of the Board of Foremen	$4 00	
Deduct meeting of do do Benefit Minstrels	4 00 5 00	13 00
		$99 00
Less 50 per cent for cash		40 50
		$49 50
F. Soule &Co. Original amt. of bill,	$59 00	
Deduct estimated over charge	20 00	39 00
Bulletin. Original amt. of bill	$38 00	
Deduct estimated over charge	15 00	23 00
		$111 50

They would also report, that the Treasurer of the Board, has received from the Secretary, since last statement, $275 00

Cash on hand as per last statement, 359 90

Balance in Treasury, $634 90

Your committee would also recommend that the following resolution be adopted:

Resolved. That, hereafter, the Secretary be instructed to issue no certificates of membership excepting on the written order of the Treasurer of the Board accompanied by his receipt for the fee.

And that the Secretary be further instructed to report at each and every regular monthly meeting the number of certificates of membership issued by him.

All of which is respectfully submitted.

FLORRENCE MAHONY,
H. A. COBB,
DAVID C. MCCARTHY.
Finance Committee

The report was adopted.

Committee on Judiciary.—Mr. Hossefross from this committee, presented a lengthy report, relative to the transfer of members: being signed by only one member of the Committee, it was laid over for the present.

SPECIAL COMMITTEES.

Mr. Boruck, from the Committee on Newspapers, submitted a partial report; the Committee was continued.

Mr. Moore moved that the notices of meetings of the Board of Delegates be published in the *Globe* and *True Californian*.

Mr. Cobb moved as an amendment, until further notice; the amendment was accepted, and the original motion passed.

Mr. Reed from the committee on the case of L. R. Townsend presented a report, which on motion was laid over until the next meeting of the Board.

The report of the Judiciary Committee was then read, as follows:

MR. PRESIDENT:—The Judiciary Committee of the Board, to which was referred the subject of transferring members of the Department from one company to another, have had the same under consideration, and beg leave respectfully to report.

That, your committee is not acting upon its own responsibility, but in accordance with the decision of the Board, instructing it to draft and present such resolutions as may carry into effect the determination of legalizing such transfers.

We, therefore, recommend that the strictest scrutiny on the part of the board may be had, previos to adopting the resolutions we present, and which accompany this report.

Many questions may arise, and many now exist, with regard to the propriety of the measure, and the manner in which it can be properly accomplished; and, your committee acting simply in accordance with its instructions, beg leave to again urge upon the members of this Board a calm and careful consideration of the subject before us, and the manner in which it has been treated by those to whom it has been entrusted.

All of which is respectfully submitted.

GEO. H. HOSSEFROSS. Chaiman.
E. P. BUCKLEY.

Resolved, 1st, That it shall be the privilege of every member of this Department in good standing, to withdraw from any company to which he is is attached, and join another that may be willing to receive him, without loss of his time and without being compelled to pay for the new certificate he shall receive after joining another company. Provided, nothing herein shall be construed as to warrant the issuing a certificate until the member so transferred shall have served twelve consecutive months in the Department. and in the event of his having so served previous to his transfer, then he shall serve twelve consecutive months in the company to which he may be transferred, before he can receive another certificate.

Resolved, 2d. That the mode and method of transfer be as follows. When a member of a company desires to be transferred he shall make the same known at a regular or called meeting of his company, and likewise state the name of the company that he is desirous of being transferred to; when it shall be the duty of the Secretary to notify said company of the fact, and if they are willing to receive him into membership, it shall be the duty of their Secretary to notify the company from which he has withdrawn of the same, upon which notification he shall be entitled to an honorable discharge from his company. Providing, always, that at the time of such discharge he has fully complied with the laws and regulations of his company, and that he still remains a member subjected to said rules and regulations until he is properly installed into the company to which he desires to be transferred.

Resolved, 3d. That this Board recognizes and acknowledges the right of each and every company in the Department, to have the full and entire government of its internal affairs and management and the exclusive control of the same; providing, that said action does not interfere with the rights and privileges of others; that every question of time or leave of absence belongs exclusively to the respective companies, and that no additional fee for a new certificate shall be exacted by the Secretary of this Board, except where a member has been reinstated, after having been fully convicted of forfeiture of membership, and the same duly certified to this Board by the Secretary of the company of which he may have been a member.

Resolved, 4th. That all laws and regulations of this Board now existing and in controvention of these resolutions be and the same are hereby repaired.

The report was received, and on motion of Mr Vreeland laid upon the table for further consideration.

Mr Wason from the committee on the case of J. C B. Stanley, presented two reports, one from the Physicians of the Department, and one from his own committee, relative o the matter: as follows:

REPORT.—At a meeting of the Board of Physicians held at the office of Dr. Stout, Aug 18th, the undersigned present at the meeting examined carefully the condition of health of Joseph Stanley, in accordance with the requisition of the Fire Department. The undersigned having examined as fully as possible the circumstances of the injury of Mr Stanley, are of opinion that whatever may have been the severity of the accident at the commencement, he is now in condition to provide fully for his own subsistence and that no physical incapacity exists sufficient to retain him on the pension list of the Department.

H. M. GRAY M. D. Chairman
ARTHUR B STOUT Secretary.

WM. HAMMOND M. D.
CHAS BERTODY M D.
JOHN HASTINGS M. D.
F. A HOLMAN M D.
S R HARRIS by Dr Gray Proxy.

SAN FRANCISCO, Aug 12th, 1855.

BOARD OF DELEGATES OF THE S. F. F. DEPT.

Gentlemen: The Special Committee to whom was referred the resolution in relation to J. C. B. Stanley, Beg leave to report:

That they have examined the resolution upon which the money was drawn from the Charitable Fund (A copy of which is herewith annexed, as also a copy of the resolution as it actually passed the Board,) and that we are decidedly of opinion that Mr Stanley had no legal or equitable right, under said resolution, to draw money from that Fund. And, we further believe that there is no member of this Board, or of the Fire Department, who was present when the resolution was offered, and the matter discussed, or a disinterested party who will read the resolution as it finally passed that will justify Mr Stanley in drawing the money.

Your committee have yet to learn that an amendment to a resolution almost entirely altering its original character carries the resolution as at first introduced. We would call the attention of the Board, to the fact that Mr. Stanley not only drew the money from the Charitable Fund, according to the resolution introduced, (but which was not passed,) but also obtained the money from the Treasurer of the Board of Delegates, which was given him by the Board in place of the money called for by above named resolution, as a relief under the circumstances.

We do not consider it nescessary for us to examine the question at all, as to whether Mr. Stanley was or was not entitled to draw a monthly stipend from the Charitable Fund; but only as to his right to draw the one hundred and fifty dollars, ($150,) in question, under the amended resolution as passed by this Board.

Your commitee after a careful examination cannot discover how that resolution can be possibly tortured into any such meaning, and they are not only astonished that the money was demanded under it, but that the Treasurer should have paid it.

We would here remark that we consider it improper, at least, if not contrary to the spirit of our "By laws," for the Secretary to furnish a certified copy of the minutes of this Board with the seal attached, unless instructed to do so by a vote of the Board; in which case the signature of the President would be required, particularly before the minutes have been corrected.

The case now under consideration is one in point. Had the certified copy of the minutes upon which the money was withdrawn by Mr. Stanley, been handed to the President for signature before the seal was attached, and before it was given to the party calling for it, he would in all probability have discovered the discrepances, and the money would now be in the fund where it justly belongs.

We have further to report: That we have obtained the report of the Surgeons of the Department, on the case of J. C. B. Stanley, as instructed, and herewith endorse it.

All of which is respectfully submitted.

A. WASON
FLORENCE MAHONY
CORNELIUS WALSH
Committee.

The report was adopted, and on motion of Mr. Moore, ordered to be published.

Mr. Hossefross from the committee on lobbying bills made no report.

Mr. Cobb from committee to present Mr. Stanley's case to the Common Council, asked that the committe be discharged; request granted.

The following communications from the Chief Engineer, and Mr. Herbert Foreman of Crescent Engine Co. No. 10, were received and read—as follows.

CHIEF ENGINEER'S OFFICE
San Francisco Fire Deparment,
Hon. Board of Delegates of San Francisco F. D.,

Gentlemen: In behalf of the Fire Department of the City and county of San Francisco; I charge James Herbert Foreman of Crescent Engine Co. No. 10, with disobedience of orders issued to him by Alex. Devoe, Third Assistant Engineer of the Fire Department; for that, whereas:

At the fire yesterday morning on Pacific street between Montgomery and Kearny streets, Assistant Engineer Devoe had charge of a force overhauling the rubbish, he ordered water from No. 10, being at that time, the only engine on the ground, his order was countermanded by Mr. Herbert the Foreman of the company, who ordered the latter to cease working, giving as a reason that Mr. Devoe's orders should come through him (Herbert) to the company; Mr. Devoe again ordered No. 10 to give him water, Mr. Herbert again countermanded the order, the fire in the meantime burning.

Very respectfully,

JAS. E. NUTTMAN,
Chief Engineer S. F. F. D.

San Francisco, Aug. 5th, 1856.

SAN FRAACISCO, Aug. 13th, 1856.

Hon. Board of Delegates of San Francisco F. D.

Gentlemen: Having been notified by the Chief Engineer that I am suspended from all duty as a member of the Fire Department, for disobeying the orders of Asst. Engineer Devoe, at the fire on Pacific street, on the morning of the 4th inst., and learning that charges to that effect will be preferred against me at your meeting this evening.

I would, therefore, beg leave to state to your honorable body, that I admit the correctness of said charges, and having no defence whatever to make, do plead guilty to the same; trusting that you will give my case your earliest attention,

I remain respectfully yours,

JAMES HERBERT.

The President having stated the law in regard to the matter.

Mr. Sinton moved that the Board proceed to the immediate consideration of the case—adopted.

Mr. Vreeland moved that Mr. Herbert be publicly reprimanded before the Board.

Mr. Moore moved that he be expelled from the Fire Department.

Mr. Cobb moved that he be suspended for sixty days.

Mr. Moore having withdrawn his motion, Mr. Cobb accepted an amendment of Mr. Biden, that Herbert be suspended for 30 days, when Mr. Moore renewed the motion to suspend for 60 days. The question being taken resulted as follows:

For 30 days suspension; Messrs. McCarthy, Hunt, Zabriskie, Wason, Boruck, Hixon, Vreeland, Titcomb, Walsh, Thomas, Biden, McGrotty, Buckley, Hoff, Whalen, Finnegan, Reed, Plum, States, Berry, Cobb, Maillott, Law—23.

For 60 days suspension—Rand, Ottignon, Hossefross, Sinton, Moore, McKendry, Fitzpatrick, Brennan, President Jones—9.

The amendment to suspend Herbert for 30 days was adopted.

Mr. Biden moved that Mr. Herbert be suspended from duty as a member of the department, without loss of time, adopted.

Communications from Chief Engineer Nuttman and one from Jackson McGowan, was received and read as follows:—

CHIEF ENGINEERS OFFICE,
San Francisco Fire Department.
Hon Board of Delegates of San Francisco F. D.,

Gentlemen: Mr. Jackson McGowan has resigned his position as bell ringer, I have placed a person in his position, and request you will take some action in the matter as soon as possible.

Yours respectfully,
Jas. E. Nuttman, Chief Engineer, S. F. F. Dept.

San Francisco, Aug. 13th, 1856.

San Francisco, Aug. 9th, 1856.

To the Board of Delegates San Francisco F. Dept.

Gentlemen:—I herewith most respectfully tender my resignation as bell ringer, and beg that you will accept the same. Very respectfully,

J. McGowan.

An appeal of John P. Corrigan, from a decision of Knickerbocker Engine Co. No. 5, was referred to a Committee consisting of Messrs. Rand of No. 3 McCarthy of No. 1 and Berry of No. 1 H. & L. 1 to investigate.

The following communication from the Gas company, was received and read and referred to the Board of Supervisors:—

OFFICE SAN FRANCISCO GAS CO.
August 13th, 1856.
To the Board of Delegates San Francisco F. Dept.

Gentlemen:—The Trustees of the San Francisco Gas Company, desire to call your attention to the amount, which is constantly being augumented, due said Company for gas, and gas-service pipes, furnished to the different Engine, and Hook and Ladder houses of the city.

The amount due and unpaid on the first day of July last, for the period extending from said date, back to December, 1854, was the very large one of the five thousand and seventy-five dollars and seventeen cents, the bills for which were rendered monthly to the city authorities, and for many months, duplicate bills to the different companies, weekly.

For the month of July last, the bills of the several Houses, amounted to three hundred and nineteen dollars and thirty-four cents, as per statement enclosed herein, and those of the present month, will be of about the same amount.

Under the provisions of the Consolidation Act, the supervisors have no authority to pay these bills; and, as the Trustees of this Company think they have already shown, every disposition to act towards the Fire Department, in this matter, with the consideration which it so pre-eminently deserves; I have been instructed by them to ask of you some immediate action in the premises.

I am sirs, your obedient servant,

JAMES DONAHUE, President S. F., Gas Co.,

On motion of Mr. Titcomb the Board proceeded to an election of Bell Ringer.

Messrs. Peter Kenny, and J. C. B. Stanley being in nomination, with the following result:—

For Kenny.—McCarthy, Hunt, Zabriskie, Wason, Rand, Ottignon, Boruck, Hixon, Vreeland, Titcomb, Hossefross, Moore, McKendry, Walsh, Thomas, Fitzpatrick, McGrotty, Biden, Buckley, Brennan Hoff, Whalen, Finnegan, Reed, Plum, States, Berry, Cobb, Maillott, Law, President Jones,—31.

For Stanly.—Sinton.

Mr. Kenny having received a majority of all the votes cast was declared elected Bell Ringer, vice Jackson McGowan, resigned.

On motion the Board adjourned.

Heart Rending Suicide.

Captain James Reynolds, until within a short time one of the emyloyees of the Mint, committed suicide at his room in the Central House, Clay street, South side between Dupont and Pike Streets, on yesterday afternoon about five o'clock, by—cutting himself in the neck with a commou penknife penetratidg the carotid artery and jugular vein, from the effect of which he bled to death. Prior to committing the fatal act, he took off his coat, cravat and boots, and stabbing himself, held his neck over the wash bow luutil becoming exhausted from the loss of blood, reeled over to his bed, from which it is supposed he fell in the agonies of death. A gentleman calling upon him on business, found him dead upon the floor. It appears that since his discharge from the Mint, Captain R. has labored under severe depreision of spirits, on account of the loss of his situation and from pecuniary embarrassment. Through the solicitations of friends howeder, wes re-appointed in the Mint, and was to have onterered upon the discharge of his duties this morning, and had he lived five minutes louger would have been aware of his good fortune. Capt R. was about 43 years of age, a native of Philadelphia, where he leaves a wife and eight children. He served with great gallantry in the Mexican war attached to the New Jersey Battalion. He has been a resident of this city for more than two years past, and by his kindness and urbanity of manner, drew around him a large circle of frtends, who deeply deplore his untimely end. Capt. Reynolds was an active member of Manhattan Engine Co. No. 2. Drs. Williamson and Fifer made a post mortem examination of the body—cause of death death, as above set forth.

THE CHARITABLE FUND.—During the temporary absence of Mr. Henry Haight in the Atlantic States, Mr. Eugene L. Sullivan will perform the duties of Treasurer of the Fire Department Charitable fund. There is at present in the fund the sum of $36,000; Interest due and collectable $1750, Cash now on hand, $250, making the total—amount of the fund $38,000, when the annual report is made in February, the amount to the credit of the Department will be about $42,000, and in one year from that time, it will reach the sum of $50,000.

MANHATTAN No. 2.—The members of Manhattan Engine Company. intend running the little side stroke engine formerly used by them, which is now being rapidly put in order by Wm. Free. They intend applying to the Board of Supervisors for permission to sell the present engine now in use, and with the proceeds purchase another apparatus more suitable for the men and the city. We hope the application will be complied with by the Board for it is one reasonable in every way.

DIPLOMA CERTIFICATES.—From and after this date, no Diploma certificates will be issued, except personally to the parties entitled to them, or upon their written order.

PRESENTATION.—A massive gold pencil and pen was presented to T. Stundeman, Secretary of Engine Co. No. 4. of Sacramento, on Monday Evening, by J. C. C. Halley on behalf of the company.

ELECTION.—An election of officers was held on Monday evening in Eureka Engine Company, No. 4. of Sacramento, with the following result: Foreman, W. C. Felch; First Assistant John C. Haley; Second Assistant Joseph Moss; Secretary, T. Stundeman; Treasurer H. P. Osborn,

Theatrical and Operatic Scraps.

It is announced in the New York papers that Edwin Booth, the tragedian, will commence the fall campaign in that city at the Broadway theatre in September.

Mr. Booth leaves this State on the 5th proximo.

Miss Davenport has arrived in New York from her European tour.

At the Walnut, in Philadelphia, Gabriel Ravel and troupe have got the "Green Monster" going at a great rate of attraction.

The Arch street theatre, Philadelphia has been successfully enlivened by Eph. Horn and his band of Ethiopian Serenaders.

Charles S. King, of the San Francisco Metropolitan, is now down east, and will pick up some novelties before returning.

Mrs. Alexina Fisher Baker has been engaged by Mr. Marshall, for the Walnut, at Philadelphia.

The Holliday street theatre, Baltimore, closed on the 7th of July, with a testimonial to manager John T. Ford,

Mr. Neafie has pleased the people of Toronto so well that he has been engaged for another week.

M. Monplaisir has left New York for London.

F. S. Chanfrau and Miss Albertine have been playing to fine houses in Newark. They are among the most attractive "stars" on the stage.

Signora Steffanoni has arrived in London from Rio Janeiro, where she sang twice only, and did not please at all.

Davidge is engaged by W. H. Crisp for the Gaiety, New Orleans, Mr. John Vincent, late of the Broadway, is to be the second low commedian.

George Christy is soon to open the Boston theatre with negro entertainments.

Ristori is very successful in London. Madame Rosa Devries retains her hold of popularity.

Laura Keene is to have a new theatre built for her on Broadway, near Houston street, N. Y., at a cost of $50.000.

John Brougham seems to have madea good business hit at the Bowery. His company now number among them some of the best performers in the country.

Miss Avonia S. Jones, daughter of Mrs. Melinda Jones, the well known actress, has made a decided impression in Toronto, C. W. She is barely eighteen, and her talents have obtained for her no little consideration. This lady is a native of Virginia, where she was born, while her father was manager of the "Avon" theatre in Richmond. She is a very beautiful girl, has received a splendid education, and is gifted by nature with brilliant intelligence.

The editor of the New Yorker is enabled to state, "on the best authority," that a party of influential gentlemen are about to build a new theatre, which is to be the theatre *par excellence* of New York city.

At the Summer Garden, New York, a new play entitled the "Seven Ages of Woman" has been produced, illustrating the progress of a female from the cradle to the period when she becomes a great grandmother. The play is having an unprecedented run.

Jenny Lind talks of re-visiting America, and there is a rumor that Clara Novello and Miss Dolly, whose excellence is manifested in the oratorio, will be there shortly.

The academy of Music has been closed.

Marie Taglioni has made her last appearance at Her Majesty's Theatre, London.

Mr. and Mrs. Florence have been playing at Manchester, Liverpool, and other provincial cities, with marked success.

The Rousset family, at last accounts, were at Lima, Peru. Mi'le Thierry was also there, but she had been unable to get an engagement on account of the increased attractions, in point of numbers of the Rousset sisters.

Biscacianti is singing with great success at Montevidio.

The Turf.

The match race for $1,000, over the Pioneer Course, on Saturday the 10th inst., between the celebrated trotter New York to sulky, and the well known pacer Young America to skeleton wagon—mile heats best three in five, resulted as follows:—

J. Crooks named b. g. Young America,....1. 1. 1.
G. Ferguson " b. g. New York,.....2. 2. 2.
Time 2.47—2.41½—2.42.

The day was very blustery and the track somewhat heavy, which accounts in a measure for the slow time made on the occasion. There was but a meagre attendance of spectators present, and the betting with light odds mostly in favor of the trotter.

The draymen's race announced to come off over the Pioneer Course, on Thursday, for a purse of $50, did not take place, owing to the slim attendance of persons present, and not as some of the papers would infer from a misunderstanding among the owners of the horses.—The number of spectators present would not admit of the purse being given without a dead loss to the proprietor of the track. Consequently the entrance money was returned.

MATCH TO COME.—Daniel Webster has been matched against New York for $2,000.—$1,000 a side two miles and repeat in harness, the race is to come off over the Pioneer Course on September 6th, 1856.

From what we learn both horses are in excellent condition, and are expected to make some fast time.

METAIRE ASSOCIATION RACES.—The winter meeting on the Metaire Course, New Orleans, will commence on the 1st of January with a sweepstake for three year old, mile heats, subscription $300, forfeit 1,000, and will close with a four mile heat race for a Jockey Club, purse $1200. A beaten purse, for noon-winning horses will be run for after the regular meeting.

A superb course has been purchased in Louisiana by some twenty breeders and turfmen of the South west for $40,000. The Association propose to conduct it upon the plan of the South Carolina Jockey Club at Charleston—a most admirable arrangement.

AMERICAN HORSES FOR EUROPE.—Richard Ten Broeck Esq., one of the leading turfmen of the United States, sailed from New York for Liverpoo on the 9th of June. The renowned *Lexington*, *Lecomte*, *Pryor*, and *Pryoress*, the best "flyers" in the United States will shortly follow him to England, where, as a matter of course, he will pit them against the flyers of that region at the coming fall meeting of the Derby. If he should win a victory, which no doubt he will, like that achieved by Commodore Stevens, yacht America, he will immortalize himself and country. It is the intention of Mr. Ten Broeck also to enter for the Queens Cup at the Doncaster. England will now have to produce some of its best thorough-breds to contest for the palm of distinction, and we doubt much whether they have a horse among them that can push any of the above named for a two, three, or four mile heats, at their best speed, let alone beat them.—We recollect several years ago that Acor-

of the Spirit of the Times, and a number of other American gentlemen offered to make a match for $50,000 or upwards a side with some of the leading English Turfmen, that they could produce several horses in the United States that could beat any horse in England, weights for age, three or four mile heats and repeat, that they could turn out and that they would visit England with their stables, provided the match would be made. Several noblemen visited the United States for the purpose of accepting the offer, but after seeing and hearing of Fashion and Boston's performances, backed out, since then there has been no challenge offered from either side of the water. In the present instance we may confidently rely, that if Mr. Ten Broeck succeeds in renewing this match, America will come out like its famous yacht—first best.

NEW YORK RACES.—The second meeting of the Fashion Jockey Club is announced to commence on the 23rd of September. There is every prospect of a very exciting meeting.

RESIGNED.—It is understood our Minister to the French, Mr. Mason, has resigned his position.—No reason is given for this step, but we presume it is owing to his being unable to procnre any of S. P. Whitman's Fresh Dairy Butter in France.

NEW ADVERTISEMENTS.

METROPOLITAN THEATRE

PROPRIETOR & MANAGER....MR. JOHN TORRENCE
STAGE MANAGER ....MR. GEO. RYER

BENEFIT OF PHELPS & BOOTH

Saturday Evening, Aug. 16th, 1856,

Will be presented the grand Drama of

GREAT TRIAL OF SAFES!

GLORIOUS NEWS FROM THE BRUNT DISTRICT

"HERRING'S SAFES RIGHT SIDE UP"

EVERYWHERE as far as yet heard from, Herring's Safes have proved real Salamanders, and since the recent fires we have letter after letter attesting their superiority over the trash that, under the SAFE name, have been sold to the public. Read the following from the Nevada:

E FITZGERALD & CO, Sole Agents.
112 Battery stret

NEVADA, Cal., July 23 1856.

MESSRS. E FITZGERALD Co., No. 112 Battery street, San Francisco

Gentlemen—We take pleasure in stating that the Herring Safe purchased from you, after being subjected to the most intens heat during the burning of our store, one of the largest brick buildings in Nevada, was dug from the burning ruins red hot, and that after being cooled off with water it was opened and found to have entirely preserved our books and papers and several packages of money therein deposited. We consider it a perfect triumph.

The Military Gazette

AND FIREMAN'S JOURNAL.

SAN FRANCISCO

SATURDAY MORNING, AUG. 16, 1856

BENEFIT.—The Washington Continental Guards Captain Fenn, have been tendered a benefit to take place at San Francisco Hall, on next Wednesday evening the 20th inst. As this is one of the most deserving companies in our midst we hope the public will respond to the call they have made, and give them a crowded house. An excellent bill is offered.

Minstrels Guard.

A number of persons, in connection with the San Francisco Minstrels, have formed themselves into a company, under the above name, for the purpose of proceeding on a target and picnic excursion, sometime next month. Their organization is mostly composed of musicians similar to the Minstrel Guards of the City of New York. They wil be armed with muskets, of course only to give zest to the military ardour which at present pervades all classes of the community, and we venture to assert that on the day of their first parade they will go through with the "manual" and marching movements with as much skill and precision as the best thoroughly trained company in our mids; E Deaves Esq., one of the Minstrels, at present attacched to San Francisco Hall, and an old officer in the 11th Regimeut in the Mexican war (Scotts line) has bee elected Captain;. S. C. Campbell, 1st Lieutenant; Jerry Bryant, 2d do; Wm. Birch, 3d do; and G. W. Brady, orderly Sergeant. The Company haae already procured a drill room in which they meet occasionally for the purposes of drill. Their next meeting is called for Monday 18th inst. at 2 P. M.

The old proverb of "Music hath chaams to sooth the savage bseast" can hardly be said to be applicable in this case, or at any rate is an anomoly we can scarsely understand, for the present Company combines among its members both excellent musicians and good fightiing material

Three hundred U. S. troops from Carlisle barracks, en route for Kansas, passed through Pittsburgh lately.

The new Steam frigate Roanoke, built at Portsmouth, Va., has been taken out of the dry dock

The U. S. Surveying steamer Hetzel, Lieut. commanding, Almy, has been ordered to survey Ocracoke Inlet, on the coast of North Carolina.

THOSE MUSKETS.—We learn that George Law has sold all his muskets to Col. Colt. One hundred thousand stand have thus changed hands. It is said they are to be altered and adapted for modern use.

THE PLAZA.—We suggest to the different Engine Companies, in coming out to drill for the present to make the top of the plaza pole the height of their ambition; as by that means a double advantage will be reaped; in the working of the apparatus and watering the trees and grass of that forlorn looking spot.

VIGILANCE PARADE.—We learn that on Monday the Battalions and Regiments comprising the main body of the Vigilance Committee will turn out in full force and make a grand parade demonstration As we have no means of gaining information of the future intentions and movements of the Committee, we presume the display is intended to show off their effective force preparatory to their disbandment as a military organization, which it is said will take place on the 20th, inst. Many of the Companies will keep up their organization as independent military associations, and hereafter if called upon, be ready to act in cases of emergency.

COLUMBIAN No. 11.—John Toomy has been elected First Assistant Foreman, of Columbian Engine Company No. 11. *vice* Daniel N. Tucker resigned.

NOTICE.

CHAS. SMITH & THOS. GIBSON,

CATERERS,

WOULD RESPECTFULLY INFORM THE Ladies and Gentlemen of San Francisco that they have taken a room in the El Dorado Building, Kearny st, corner of Washington, where, in connection with their Catering and serving Notices for Weddings and Parties, they will attend to Whitewashing, Wall Coloring and House Cleaning. Jobbing of all kinds will be thankfully received, and promptly attended to. Waiting and Cooking for Parties strictly attended to. jy12-3m

ELECTRO CHEMICAL BATHS.

The recent discovery of a really wonderful and most beneficent method of applying electricity for the removal from he human system. of Mercury in all its forms, iron, zinc, lead, antimony, arsenic, quinine, and all other metals, minerals, and insidious drugs, and the consequent speedy cure of

Paralysis, Rheumatism, Stiff Joints, Painter's Colic and Lame Wrist,
Indolent Ulcers, Jaundice, Fever and Ague, Diseased Liver,
Diseased Kidneys, Tic Doloreux, and all Nervous Affections,

Is termed as above. The cure is almost immediate. These Baths produce the most gratifying and delightful sensations without shock or disagreeable disturbance of the system. Those who have been without hope for months or years—those who are "neither dead nor alive?"—those who feel cold and torpid—those who know they are "full of mercury" iron, and wish to have it "taken out" of them—all all!—will take these Electro-Chemical Baths. The Ladies will find them of inestimable value, as in removing diseased conditions, they render the skin clear, soft and smoother. A competent lady will attend to them.

DR. BOURNE, Water Cure Physician, corner Sansome and Commercial streets, opposite St. Nicholas Hotel, has just imported and arranged the FIRST and ONLY apparatus for administering these delightful Baths, and is now prepared to employ them in all cases of Paralysis, Stiff Joints, Rheumatism, Fever and Ague, (only one Bath is said to be requisite.) Jaundice, Neuralgia, etc. etc.

PIONEER WATER CURE INSTITUE,

Southeast Corner of Sansome and Commercial Streets, opposite the St. Nicholas Hotel, San Francisco.

DR. BOURNE,

Water Cure Physician,

Having every facility for the scientific administration of Water Treatment, offers the advantages of this natural, rational, and most efficacious mode of curing diseases to invalids, in either acute or chronic stages of suffering, and especially to those laboring under the

RUINOUS EFFECTS OF CALOMEL,

and Drug treatment generally.

There are no nauseous or poisonous medicines to swallow or pay for, as DR. BOURNE does not administer any whatever, nor bleed, cup or leech: so it is not only the BEST but CHEAPEST system for restoration of health

☞ In Chronic or Acute Rheumatism, Diarrhœa, Dyspepsia, Fever and Ague, Isthmus Fever, ALL Nervous and Sexual disorder—in fact, in all cases, the WATER CURE is of UNEQUALLED VALUE.

Apply personally, or address by letter, as above

Office hours—10 A M, to 1 P M, and after 7 P M.

☞ PARTICULAR NOTICE. ☜

The "Russian," Digger Indian! Turkish, or Egyptian "Steam Baths."—the invention of barbaric minds,—with all their EVIL CONSEQUENCES

to Weak Lungs, Palpitating Hearts, and debilitated Digestive and Nutritive Organs, are NOT Water Cure, and bear no more resemblance to that glorious system than does a horse to a red herring, notwithstanding all the false representations to that effect DR. BOURNE is the Pioneer and only Water Cure Physician on the Pacific Coast, and is daily demonstrating his skill in his art with the highest success—curing those whom the medical fraternity had placed almost beyond the confines of hope: such being the general character of the cases demanding and receiving relief at his hands. Let them continue to come and be HEALED, and converted to this wiser and better way. jy5.3m

LOOK OUT FOR THEM!

DON'T BE HUMBUGGED!!

INTO PAYING YOUR MONEY FOR Worthless Trash called patent Ambrotypes, which are being palmed off on the public as imperishable THEY WON'T STAND SIX MONTHS.

In the so called Patent Ambrotypes the pictures are sealed with Balsam, which constantly oozes out, and soon leaves the picture covered with blisters, and it is ruined. For the truth of this, examine closely specimens, (and the small ones particularly,) in a certain extraordinary fine show case in town, and see for yours ives.

WE tried sealing Ambrotypes long ago, and had some twenty or thirty specimens at the door, but one by one they have become ruined, and now only one remains of the original lot.

By the improved method of putting up Ambrotypes, the cement is entirely done away with, and the picture is covered with an enamel which instantly dries and becomes as hard as the glass itself This is the improvement, and the pictures are called IMPROVED AMBROTYES throughout the United States, and honest operators make no other. These pictures were first introduced in California by Ford, and he still makes them in unequalled perfection.

Having received by the last steamer a Mammoth sized CAMERA, Mr Ford is prepared to execute LIFE SIZE Ambrotypes and Photographs.

Particular attention is paid to the Photographic Views on paper.

Orders for these will be attended to from any part of the city and surrounding country

FORD'S DAGUERREAN GALLERY,

Undertaking & Furnishing

ESTABLISHMENT,

161 Sacramento Street,

(two doors below Kearny)

Have always on hand a large assortment of LEAD and METALLIC COFFINS, and are prepared at all times to disinter bodies and prepare them so that they can be forwarded to any part of the world without danger of further decomposition.

They are always prepared to attend to Funerals with promptness and dispatch.

FISK'S PATENT METALLIC BURIAL CASES

And Corpse Preservers,

We have received the right of sale of Fisk's Paten Metallic Burial Cases, and are prepared to furnish them to Undertakers and others at a small advance upon cost price in the Atlantic States. The advantages claimed by the use of Fisk's Patent Metallic Coffins for preserving the dead, over all others now in use, are: First, that they are necessarily cost very little over the price charged for coffins made of the ordinary woods, and that the manner of using them is so simple that any person can do so by following the directions which accompany each Case; And, lastly, because they answer the purposes they were originally intended or designed for, viz: the preservation of the human body from decomposition after death, so that it can be forwarded to any part of the world with safety, allowing sufficient time to gratify surviving friends who may be absent, and thereby enabling them to take the last fond look of the dead, without offending the most delicate or sensitive. We have witnessed the preservative properties of these Coffins a number of times in cases where it became necessary to convey the corpse to a distance, and never, in a single instance have we known them to fail in all that has been claimed for them. Being perfectly air-tight, the body once placed in them retains its natural appearance, without disturbing or disfiguring it in the least, and will remain so for a number of years, if proper care is taken so as to prevent the case from getting broke. And we further state that it is only necessary to give them a trial in order to satisfy the most skeptical. A. MASSEY.

JAMES GALLAGHER,

Undertakers and General Furnishers.

DAGUERREOTYPES.

$100 REWARD!

TO ANY ONE WHO CAN PRODUCE AS good an AMBROTYPE PICTURE as we are making, no matter in what part of the world it was made.

R. H. VANCE,

PATENT AMBROTYPES

Corner of Sacramento and Montgomery streets.

To those who wish something New and BEAUTIFUL:—We have purchased the Patent Right of CUTTING AMBROTYPES for this State, and are now prepared to take them in a style unequalled in the United States, of any size, from the smallest minature to life size.

I hereby denounce all Pictures taken on Glass in this city or State, and called Ambrotypes, as BOGUS, and a fraud upon the public, being a miserable imitation of the genuine article. I would say to all who have been deceived and swindled with Bogus Pictures, not to condemn this new and beautiful invention until they have seen the GENUINE AMBROTYPES. They are said to be the most durable Picture known, as neither acids, water, or dampness of any kind, can affect them. Those having Daguerreotypes which they wish to preserve FOREVER, would dowell to have them copied in Ambrotype.

Great attention will be paid to GROUPING. Groups from 2 to 20 can be made perfect. Persons can now be taken with Regalias, Military or Fireman dress, without having the insignias or letters reversed

Children taken by this new process in less than one second.

We still continue to execute our splendid Premium Daguerreotypes as usual. Having made great and extensive additions to our Gallery, for the purpose of making and exhibiting our Ambrotype Pictures, we would be pleased to have our work examined. Our Gallery is FREE to all.

je14 3m

CAUTION TO THE PUBLIC.

A CHALLENGE!

WHEREAS, A CERTAIN DAGUERREOTYPIST of this city has advertised that he takes the only genuine AMBROTYPES in this city, and that all others are BOGUS, we announce this a gross misrepresentation, and an attempt to swindle the public. Mr GEO. McKOWN, of our firm, was putting up Ambrotypes by this alleged patented process, at Mr Root's establishment in Philadelphia, long before a glass pictare was taken in California; but, as it was soon found out it invariably destroyed the picture, it was repudiated. We can show any person, in a few minutes, by calling at our rooms, the truth of this statement.

$200 CHALLENGE!

To be left to scientific men, that our pictures are put up better, look better, and will last longer.

We are not compelled to buy expensive and magnificent frames to show off our minatures—they speak for themselves.

AND, MIND YOU, we only charge a little more than ONE-HALF the price. The dear public have got to pay for these magnificent frames, and high rent and expenses; we do our own work, and our expenses are trifling, comparatively speaking. HAMILTON & McKOWN,

CORNS, BUNIONS, NAILS, &c.

The Subscriber offers his services to the public as an operator on EXCRESCENCES, such as HARD and SOFT CORNS, CLUB NAILS, BUNIONS, NAILS PENETRATING THE FLESH, &c.

Operations performed in five minutes, without pain or blood, so that the boot or shoe can be worn immediately after the operation, without the least inconvenience to the patient. He has devoted much time and thought to the subject, and believes that he entirely comprehends their nature and treatment. His success has been such in the last fifteen years as to warrant him in promising to all who may confide in his experience and skill great and satisfactory results.

DR. ZACHARIAH will attend ladies or gentlemen at their residence if required, and will be happy to attend their feet by the year. His charges are quite moderate—trifling, indeed, compared with the relief and satisfaction he affords the sufferer.

Dr. Z. respectfully refers to the Physicians and Surgeons in this city, most of whom are acquainted with the science of Chiropody, and his method of operating. Also, to many citizens of this city, among which are C. K. Garrison, Esq., R. P. Hammond, Esq., Samuel Purdy, Esq., D. Broderick, Esq., Dr. R. P. Ashe, Navy Agent, and many others.

My certificate book, which contains certificates from many of the most eminent men in the United States, is open to all who may think proper to examine the same.

DR. I. ZACHARIAH., JR.,
Surgeon Chiropodist,

SEA BATHS! SEA BATHS!

Russian Steam Baths and Mineral Baths,

ON MEIGGS' WHARF.

THE FIRST AND ONLY COLD AND WARM SALT WATER BATHS, on the Pacific Coast, are now opened to the public in the beautiful large building on Meiggs' Wharf, North Beach. The construction of the natural Sea Water Baths surpasses every establishment of this kind. It affords not only the fullest security, but excludes the disagreeable draughts of the winds, and leaves full action of the waves, which is the principal necessity of sea bathing; thus rendering the privilege of the ocean not only to the strong, but also to the feeble. The Warm Sea Baths are constructed in the finest possible style, and every Bath furnished with a strong douche, so desirable to produce a reaction of the skin. Both Baths are highly recommended to invalids suffering with colds, rheumatism, chronic diseases and those calamities which a change of climate inflicts upon the human system. The Russian Steam Bath, long renowned in the world as the only sure specific against colds is put up with the greatest convenience and the newest improvements, and this with the strong power-douche of Sea Water, renders it preferable to every other construction in this branch. Using Fresh Water for douche often increases the cold, and adds new pains to those felt before applying steam.

Ladies and Gentlemen patronising us will find neatly furnished parlors, where every attention will be paid; and to bathers the utmost care will be rendered by polite female and male attendants. Omnibuses running from Rincon Point to our establishment will offer every facility and convenience of arrival, and the picturesque situation will render the trip the more pleasant. Invalids from abroad calling upon us, will have the best opportunity of taking a complete Bath-cure; a series of splendidly furnished rooms, commanding a fine view, are kept solely for our patrons. Skillful Physicians and faithful servants will attend those who seek relief in our establishment. To respond to every call we furnish Sulphur and other Mineral Baths for a speedy and complete cure.

To keep pace with the times, and to deserve attention and the patronage of the public, we charge the lowest possible prices.

The great utility of this enterprise as well as the advantages offered by the proprietors, will convince every body that it should be sustained for the good of mankind. Therefore, Ladies and Gentlemen of San Francisco, and of the State of California, give us your favor and patronize the SEA BATHS of DR. BRUNS & CO.,

MEDICAL.

Valuable Family Medicines.

THE CELEBRATED

GERMAN TONIC AND AROMATIC BITTERS.

☞ AN INFALLIBLE REMEDY FOR JAUNDICE, INDIGESTION, DYSPEPSIA, IMPURITIES OF THE BLOOD, &c., &c,

and an Elegant, Salubrious and Wonderful Restorative in all DISEASES OF THE STOMACH and DIGESTIVE ORGANS.

Virtues of the German Bitters.

In all diseases of the Stomach and Digestive Organs, the German Tonic and Aromatic Bitters surpass any medicine that has ever been devised. By a peculiar process of German chemistry, they possess the power of warming and invigorating the functions of the Stomach, while they diminish the feverish sensibility of the nerves and fibre.

They fortify and strengthen a weak stomach, and quickly dissipate all unpleasant pains and symptoms. They calm spasmodic action; restore the lost appetite; promote digestion; and, in a word, remove, with astonishing power, all the disorders occasioned by weakness and debility, provided the patient be not afflicted with indissoluble organic obstructions.

These Bitters are highly esteemed in the West Indies and southern part of the United States, for nourishing and invigorating the nervous system, and acting as a general restorative on debilitated constitutions, arising from bilious complaints contracted in warm climates.

They are pre-eminently efficacious in all inward wastings, loss of appetite, indigestion, depression of spirits, trembling or shaking of the hands or limbs, and all consumptive habits. They purify the blood, ease the most unpleasant sensations in the stomach, and promote general warmth and perspiration. They are delightfully aromatic to the taste and smell; agreeably stimulating and stringent in their action on the fibres of the stomach, giving that proper tension and activity to these delicate organs which good digestion requires.
